

Basic's evaluation	Very Good	Satisfactory	Needs improvement	Comments
Posture The conductor stays still while conducting keeping shoulders back and arms out				
Hand position Audience can not see palms or backs of hands. Hands are cupped and arms are at a reasonable distance from body				
Ictus Conductor keeps all beats at the ictus & keeps ictus at same level throughout conducting. Ictus should be in chest area.				
Confidence Conductor shows confidence in what he/she is doing no matter right or wrong				
Flowing All beats hit at same point on ictus. Definite "humps" are shown.				
W's All beats hit at same point. Arrow pattern is shown. Beat 1 is more exaggerated than the rest.				
Strict All beats hit at same point on ictus. Motion is constant, that is, does not stop on beats.
